ARCHITECT & DESIGNER AWARDS 2014

# FIREPLACE

## WINNER

**Jamieson Design, 4100 Laclede, 314-371-1777, jamiesondesign.com.**

This fireplace, fabricated of structural steel and travertine, creates a focal point for the living room and the adjacent dining room in this large contemporary penthouse in the Central West End. Three marble slabs compose the central area of the fireplace, which is recessed 6 inches from the outer marble frame. The cantilevered hearth floats above the floor, allowing the Brazilian cherry floorboards to run uninterrupted throughout. "Unusual and handsome focal point," says Boodro. "Well-scaled to the room."

## SECOND PLACE

**Mitchell Wall Architecture and Design,** 2 The Pines, 314-576-5888, mitchellwall.com.

## THIRD PLACE

**Castle Design,** 7707 Clayton, 314-727-6622, emilycastle.com.
